Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1614

Claims 1-8 and 24^{all} withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 9.

Applicants elected without traverse in Paper No. 9., claim^{1-8 and} 24 is now required to be canceled.

Applicants', further, elected the compound X of Group I and the treatment of cancer. Cancellation of the non-elected subject matter from the other claims is now required. Claims 26-35 are still being examined as they read on the application of compound ~~X~~ (as set forth in Figure 2).

Claims 26-35 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for the specific cancers disclosed, does not reasonably provide enablement for the term "cancer". The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to use the invention commensurate in scope with these claims. The term "cancer" in claims 26-35 lacks clear exemplary support in the specification as filed.

Applicants' remarks and the publications are noted but the limited number of examples set forth will not support such a broad term. Changing the term to the specific cancers disclosed would overcome this rejection.

Claims 26-35 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for the specific organic non-peptide compound disclosed and elected by applicants, does not reasonably provide enablement for the term "organic non-peptide compound". The specification does not enable any person

skilled in the art to which it pertains, or with which it is most nearly connected, to use the invention commensurate in scope with these claims. The term "organic non-peptide compound" in claims 26-35 lacks clear exemplary support. Applicants' remarks are noted but the limited number of examples set forth will not support such a broad term.

Moreover, the O'Connor et al reference cited by:

(Applicants in Paper No. 15 shows that this term can include ^{well} known anticancer agents such as "agents included in this class were (a) ~~DNA~~ cross-linking agents such as cisplatin, carboplatin, nitrogen mustard, and thiotepa; (b) DNA/RNA antimetabolites, such as 5-fluorouracil and methotexate; (c) topoisomerase I inhibitors, such as camptothecin, and (d) topoisomerase II inhibitors, such as adrianyin" (page 4296, col. 1, lines 40-45 after Figure). Clearly, the term is so broad as to include compounds that are not disclosed in the specification.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
